

2023 Agri Business Safety Network

Targeting Your Health & Safety Needs

The Road to Success

Agri Business Safety Network

OABA's ongoing commitment to provide members with efficient and effective health and safety programming continues, and we are pleased to advise the membership that our 11th year (2022) of hosting an Agri Business Safety Network was a success with 25 company participants.

Based on very positive member feedback, OABA will continue to deliver the Agri Business Safety Network in 2023. The primary objective of this program is to provide participants with information, tools and an opportunity to share through networking relationships that will support the Association's goal for the elimination of workplace injuries and accidents, and enhance your Health & Safety program.

The program consists of (3) single-day networking meetings throughout the year, hosted at the Victoria Park East Golf Club (on Victoria Road) in Guelph.

Proposed dates:

Meeting # 1	Wednesday, March 8, 2023, Guelph
Meeting # 2	Wednesday, June 7, 2023, Guelph
Meeting # 3	Wednesday, September 20, 2023, Guelph

While participants to each meeting will ultimately guide the related topics and discussion, it is anticipated that the overall structure of each meeting will include the following:

- Legislative/Regulatory updates (both Federal and Provincial) impacting health & safety;
- Information/updates on the latest in the health & safety best practices;
- Round table discussion led by participants addressing health & safety issues, experiences and solutions.

Guest speaker presentation(s) and/or training on topics of interest to participants leading to advancing the ability to develop, maintain and manage effective agri business health & safety policies and programs.

A working lunch will be provided at each in-person meeting.

CONNECTING YOUR BUSINESS TO OTHERS IN THE AGRICULTURE BUSINESS SECTOR FOR HEALTH & SAFETY SOLUTIONS.

Why Participate in the Agri Business Safety Network?

CONNECTING YOUR BUSINESS TO THE HEALTH & SAFETY RESOURCES YOU NEED

- Tap into the knowledge, experience and solutions of others to advance your firm's health and safety system
- Receive the latest regulatory updates so you stay ahead of the curve
- Achieve immediate results in improving your health and safety program
- Become part of a broader health and safety network for continuous improvement
